

COMPANY PROFILE/公司介绍

HENAN GLORY is a leading manufacturer of complete oils and fats processing plants. As part of DOING HOLDINGS GROUP, we integrate R&D, manufacturing, and project management to deliver turnkey solutions, from concept to operation.

国瑞油脂是一家专业的油脂成套设备制造商。作为东盈控股集团的子公司，我们整合了研发、制造和项目管理，为您提供从概念到运营的一站式解决方案。

河南国瑞油脂工程技术有限公司
Henan Glory Oils & Fats Engineering Co., Ltd

SMALL PALM OIL PRESSING LINE/小型压榨产线

Integrated Palm Oil Pressing Line 一体式集成压榨生产线

Capacity: 1 ton/hour
Water-bath sterilization, low investment, easy transport, plug-and-play, no installation required.

处理量：1 吨/时
水煮杀酵工艺，投资小，方便运输，免安装，即插即用。

Small Palm Oil Pressing Line 小型压榨生产线

Capacity: 1-2 tons/hour
Batch steam sterilization, low investment, high efficiency, good oil quality, easy operation.

处理量：1-2 吨/时
间歇式蒸汽杀酵工艺，投资小，效率高，油品好，易于操作。

Continuous Small Palm Oil Pressing Line 连续式小型压榨生产线

Capacity: 5 tons/hour
Continuous steam sterilization, optional PLC control system, labor-saving, high efficiency, good oil quality.

处理量：5 吨/时
连续式蒸汽杀酵工艺，可配置 PLC 控制系统，节省人力，效率高，油品好。

HOT-SELLING MACHINES/热卖机器

Small Thresher
小型脱果机

Single Screw Palm Oil Press/单螺旋榨油机

Double Screw Palm Oil Press/双螺旋榨油机

Plate Filter Press
板框压滤机

Palm Nut Cracker
棕榈仁剥壳机

Kernel & Shell Separator
仁壳分离机

Steam Roaster
蒸汽炒锅

Palm Kernel Oil Press
棕榈仁榨油机

LARGE PALM OIL PRESSING LINE/大型压榨产线

Capacity: 10-120 tons/hour. Features high efficiency, low oil loss rate, and complete process systems including sludge oil recovery and kernel recovery. Henan Glory provides integrated services: process design, plant layout, equipment manufacturing, installation, and commissioning.

处理量范围：10-120 吨/时，生产效率高、残油率低，且有污油处理回收、仁回收等完整工艺。针对此类大型项目，国瑞油脂可提供工艺设计、厂房布局设计、设备制造、安装调试及其他相关配套服务。

PALM KERNEL PRESSING LINE/棕榈仁压榨产线

Palm Kernel And Shell Separation System/棕榈仁壳分离系统

Capacity: 2-3 tons/hour, 4-6 tons/hour
Efficiency: 95-97%. Consists of cracker, and air separator. Separation based on specific gravity.

处理量：2-3 吨/时，4-6 吨/时。分离效率：95-97%，由破碎机、风选机组成，通过比重差异，实现仁壳有效分离。

Palm Kernel Oil Processing Plant/棕榈仁油加工厂

Capacity: 1-3 tons/hour
Equipped with fiber separator, automatic kernel-shell separation, pretreatment, pressing & filtration systems
Compact, complete, cost-effective.

处理量：1-3 吨/时，配备纤维分离、自动仁壳分离、预处理及压榨过滤系统，结构紧凑，功能完备，性价比高。

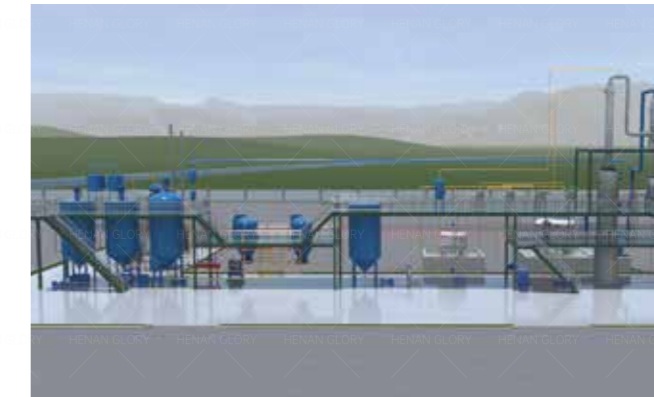

CRUDE OIL REFINERY LINE/精炼产线

Batch Refinery/间歇精炼设备

Capacity: 1-20 tons/day
Low investment, small footprint, simple operation
Supports electric or thermal oil heating.

处理量：1-20 吨/天
投资小，占地小，操作简单，支持电加热或导热油加热。

Semi-Continuous Refinery/半连续精炼设备

Capacity: 5-30 tons/day
Continuous deodorization + physical deacidification
Good oil quality, low oil loss, cost-effective.

处理量：5-30 吨/天
连续脱臭 + 物理脱酸工艺，油品好，油损耗低，性价比高。

Fully Continuous Refinery/全连续精炼设备

Capacity: 30-1200 tons/day
PLC intelligent control system, high automation, large capacity, low labor cost, good oil quality, low oil loss.

处理量：30-1200 吨/天，PLC 智能控制系统，自动化程度高，产能大，人工成本低，油品好，油损耗低。

PALM OIL FRACTIONATION LINE/棕榈油分提产线

Capacity: 1-1200 tons/day
Separates liquid fraction (olein) from solid fraction (stearin) based on melting point characteristics
Ideal for further processing of refined palm oil.

处理量：1-1200 吨/天
依据熔点特性，将液态组分（液油）与固态组分（硬脂）分离，适用于精炼棕榈油的深加工。
